

General Disclaimer Statement

PT Watercraft (PTW) and Bieker Boats have endeavored to create exceptional designs with our kits.

We encourage feedback and input from builders on the PTW website 'share spots' to which every builder is invited. Questions should be directed to info@ptwatercraft.com.

Builder modifications to the kit provided may result in a work of genius or a fatal error of judgement. Builders need to take seriously, that any material/structural deviation from the instructions and specifications during the construction of the boat, without written approval from the designers, could compromise the performance and/or safety of the boat.

The design and specifications are instruments of service and as such remain the property of the designers/PTW, with all rights and copyrights thereof.

Each kit, drawings, manual and specifications are for the construction of one boat only.

Do not copy, or allow to be copied or reproduced in any way, said design, kit, drawings, manual and specifications or any portion thereof, unless authorized in writing, by PTW.

It is the BUILDER'S responsibility to comply with USCG regulations in the installment of prescribed flotation and the application of hull numbers and capacity decal.
(instructions, hull number and decal included in kit)

Because PTW and the designers have no control over the actual fabrication and use of the boat, it is understood that their responsibility and liability shall end with providing the design and kit . While PTW seeks to provide a high quality product, the company hereby waives any and all implied warranties.
